Subject: Toasted Beef Ravioli made with Whole Wheat: #40092

Manufacturer: Louisa Food Products, Inc.

Our Toasted Ravioli has been prepared to meet the USDA school guidelines for Whole grain.

Please refer to the Product Formulation sheet for grain credits.

In regards to the meat credits, the Toasted Beef Ravioli is made with ground beef. However, Louisa Foods does not specifically list the fat content on the label; it is listed only as "beef". Since there is no single FBG yield that can cover all beef items, the term "beef" on a label cannot be accepted. Therefore, the beef used cannot be counted as a creditable ingredient.

If the beef would be allowed, the toasted beef ravioli would meet a .25 credit per serving of 4.
